The screenshot shows a Microsoft Internet Explorer window displaying the Vorarlberg Atlas website (www.vorarlberg.at/atlas). The main content is a historical cadastral map of the area around 'Buchenbrunnen' from 1857. The map is color-coded by land use, with green for agricultural land and brown for forest. It includes street names like 'Buchenbrunnen', 'Set: Wendelin.', and 'Schulertobel'. A legend on the left indicates various map themes such as Topo, Urmappe, and Political Districts. The top navigation bar includes links for 'Datei', 'Bearbeiten', 'Ansicht', 'Favoriten', 'Extras', and a search function. The bottom status bar shows the URL, scale (1:3778), and a note about copyright and usage.
