

Workshop Didactics
Icarus Didactics Working Group
Dublin, June 25, 2013

h. 15.30-17.30

Informal 'MoM-Ca users support' for Didactics.

Many institutions, universities as well as archives, are already using the software MoM-Ca to teach Paleography, Diplomatics, Medieval History and other Historical Sciences. Since 2008 there have been courses in Austria, France, Germany, Italy and the Czech Republic.

We would like to invite all to our workshop who are interested in starting using MoM-Ca for didactics or are just curious. We will be happy to get to know your specific demands and answer all your questions!

Of course, we are also looking forward to hear from those already using MoM-Ca for didactic purposes to get new cues and suggestions!

Tuesday, 25 June 2013

For further information contact the coordinator of the Icarus Didactics Group, Antonella Ambrosio, at antonella.ambrosio@unina.it
