Travelling from the airport to the city centre

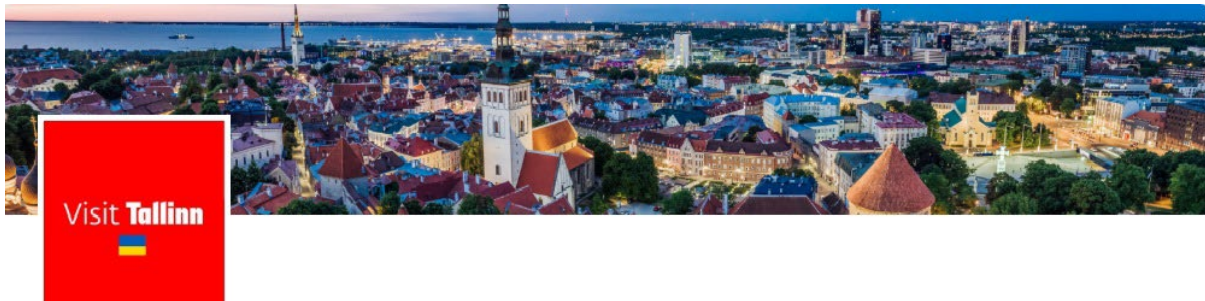

Tallinn Airport is located just 4 km from the city centre which makes the airport easily accessible. Buses No. 2 and 15 run between city centre and the airport (bus No. 2 stops at Tartu mnt/highway; bus No. 15 stops at the terminal). The airport's main bus stop is located at the northern (i.e. city) end of the passenger terminal, to which an escalator or elevator and walkway will bring you from the Arrivals area. For a single trip, purchase a QR ticket (2€) online or from the ticket machine in the waiting area by the airport's tram and bus stop. QR tickets are valid for one hour. Tickets for single trips can also be purchased by tapping a contactless bank card against the validator inside the front door of the bus and tram.

Taxis are easy to use; several taxi companies offer their services right at the Arrivals area in front of the airport. For the best prices, Bolt and Uber companies are hugely popular in Estonia.
